

Please note the meeting will be held 7:00pm, **MONDAY**, November 19, 2018 in the County Board Room at the Carver County Government Center, 602 East 4th Street, Chaska, MN.

# LOWER MINNESOTA RIVER WATERSHED DISTRICT

## Executive Summary for Action

Lower Minnesota River Watershed District Board of Managers Meeting  
Monday, November 19, 2018

### Agenda Item

#### Item 7. A. - Dredge Management

#### Prepared By

Linda Loomis, Administrator

#### Summary

**i. Funding for dredge material management**

The public hearing is being held this evening.

**ii. Vernon Avenue Dredge Material Management Site**

Staff held a meeting with LS Marine, the site manager and technical staff from Barr Engineering to get everyone on the same page. We wanted to make sure technical staff understood the operation of the site and how material is moved on and off the site.

Work has begun on wetland delineation and modifying the concept design for the team to review before making updates to the modeling. Surveyors and drillers have been contacted for quotes. All work is progressing as planned.

**iii. Private Dredge Material Placement**

Invoices for 2018 placement of dredge material from private terminals have been sent. Payment has been received from Savage Riverport.

Cargill has found someone that will take the material at a cost less than what they have been paying. Staff is working out the details with the licensees to protect the LMRWD. The material will not be taken off site all at once as has happened in the past, but will be taken out over the course of the year. This will reduce the intensity of the truck traffic coming in and out of the site. Material removal will have to be coordinated with LS Marine, the LMRWD site manager.
