Summary

i. Eden Prairie Study Area #3 Stabilization

The LMRWD applied to Hennepin County for an Opportunity Grant. Staff was informed that the grant application was not approved. The reason it was not approved is that the source of funding to complete the project was uncertain. The County liked the project and encouraged the District to firm up the funding sources and apply again next year.

No action is required on this project, this item is on the agenda for the Board's information.
