Summary

At the last meeting of the Board of Managers, an agreement for additional archeological investigation was approved. 106 Group has consulted the Office of the State Archaeologist for a permit to conduct field investigations of the area as requested by the US Army Corps of Engineers (USACOE). The USACOE has been informed of the status of the investigation they requested.

We are working with the City of Eden Prairie to replat the property that was purchased by the LMRWD. The Property must also be re-zoned. The City has requested that we hold a neighborhood meeting. This meeting is scheduled for 4:00 pm October 1, 2024.

Once all the permits, replating, and rezoning are completed final design will be developed and the project can be out for bids.
