Landscaping for Clean Water Grant Policy

- 1. Eligible project types are limited to native gardens, raingardens and native shoreline stabilizations that demonstrate compliance with Landscaping for Clean Water technical recommendations.
2. Grant applicants must successfully complete a Landscaping for Clean Water design workshop and submit a grant application, project plan, and cost estimate for District review and approval prior to beginning the installation. (grant is not retroactive)
3. District staff will review applications, select grant recipients, verify completed projects, and distribute grants in accordance to program policy.
4. Applications requesting grant approval will be reviewed in three application rounds. Application must be received by a round's start date and awarded grants automatically expire if the project is not completed by the end date of the round it was awarded in. Those dates are shown above.
5. Expired grants and grants not awarded (if any) will be made available to subsequent application rounds or the remaining funds may be reallocated to other cost share programs per the approved work plan. The number of grants awarded shall be limited by the amount of funding available and the amount of District staff time available to provide technical assistance. (application window may be extended at District staff discretion).
6. The Landscaping for Clean Water grant amount is limited to \$250.00 per approved application. Only one grant allowed per applicant per year. Applications not approved in a preceding round may be resubmitted for review in following rounds.
7. District Staff will prioritize grant awards based on watershed location, proximity to water resources, and potential to provide water quality benefits.

Landscaping for Clean Water Grants Process

- 1. Attend Landscaping for Clean Water workshop series and develop site-specific project plans.
2. Submit application, project plans, and cost estimate by the above application deadline for approval prior to beginning installation.
3. Schedule an on-site meeting with Dakota County SWCD prior to beginning installation. Call Gopher State One Call (800-252-1166) to have utilities located before the on-site meeting.
4. Install project and then contact Dakota County SWCD to verify completed project.
5. Receive \$250 Landscaping for Clean Water Grant from Dakota County SWCD.
6. Grant will automatically expire if the project is not completed by the completion deadline for the round in which the grant was approved.

## Raingarden Project Worksheet Cost Estimate

Landowner:  
Street Address:  
City, Zip:

**Water Conveyance (if needed)**

	Qty	Unit	Unit Cost	Amount
