

# **Executive Summary for Action**

Lower Minnesota River Watershed District Board of Managers Meeting Wednesday May 15, 2019

### **Agenda Item**

Item 5. B. - Cost Share Application; 1437 Valley Drive, Burnsville

#### **Prepared By**

Linda Loomis, Administrator

#### **Summary**

The LMRWD received a cost share application for a rain garden from a Burnsville resident. This resident received funding (in the amount of \$250) last year through the LMRWD agreement with the Dakota County SWCD. This raingarden will collect currently untreated water from the roof of the home. The applicant estimates the amount of roof area at 252 sq. ft. The applicant plans to connect additional roof drains to the rain garden in the future to treat an additional 129 sq. ft.

The total cost of the project the applicant is proposing this year is \$1,820.97. The applicant is requesting \$785. There is no estimate of labor to prepare and plant the raingarden, the cost estimate is all based on materials. The applicant is working with the Dakota SWCD for technical assistance.

# Project Details (continued)

**Benefits** Estimate the project benefits in terms of restoration and/or **annual** pollution reduction. If you are working with a designer or contractor, they can provide these numbers. If you need help contact the district Administrator.

Benefit	Amount	
Water captures		gal/year
Water infiltrated		gal/year
Phosphorus removed		lbs/year
Sediment removed		lbs/year
Land restored	140	sq. ft.

Water runoff captured from impervious surface 252 ft2 (+additional 129 ft2 to be added after 142)

How will you share the project results with your community?

We will shape the benefits /outcome of the Raingarden with neighbors, friends and family. We will neour age as many as we can to install raingardens in their own yards. We'd love to display a sign in the raingarden as well.

Are there other projects that could be initiated as a result of this one?

This raingander could encourage neighbors to install one or more in their own yard to help local water quality. If we are able to add another raingarden to our yard, we will do so!

# **Evaluation**

How will the project be monitored and evaluated?

My husband and I will be monitoring the project. We will continue to evaluate it's effectiveness and make any changes that may be needed.

# Maintenance agreement

I acknowledge that receipt of a grant is contingent upon agreeing to maintain the project for the number of years outlined in the cost share guidelines. \_\_\_\_Yes

## Authorization

Name of landowner or responsible party Robin Galligher Glassen

Signature Bringaugher Jasses

Date 5.8.19

Type or handwrite your answers on this form. Attached additional pages as needed

(For questions, contact Linda Loomis at Naiad Consulting@gmail.com or call 763-545-4659.)

Mail the completed application to:

or Email to:

Lower Minnesota River Watershed District c/o Linda Loomis, Administrator 112 E. Fifth St., Suite 102 Chaska, MN 55318

Linda Loomis, Administrator naiadconsulting@gmail.com

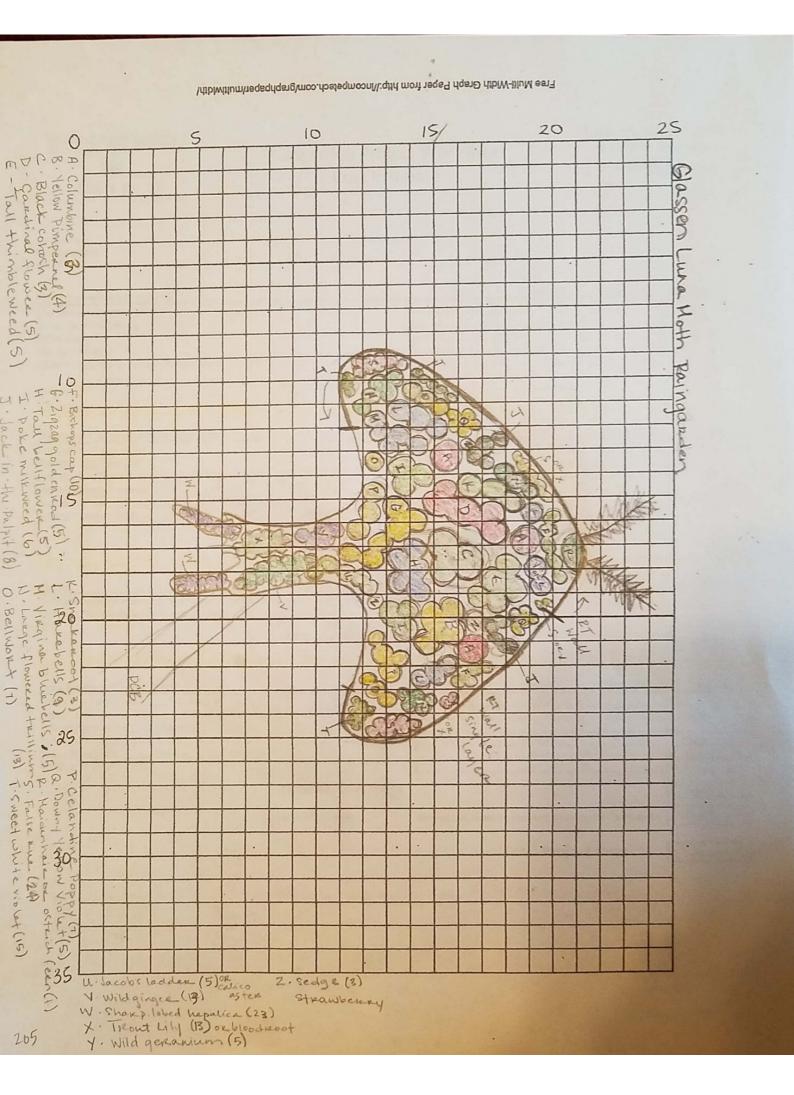

Project Timeline: May 17th-19th- equipment Rental to complete sod removal
and edging trench.

- begin retaining wall

May 20th-24th- finish retaining wall

- add compost and mulch

- install drycreek bed Hay 24th 25th - plant plants \*dependant on site visits from LCW
